Tips for Parents

SCREEN TIME

How does screen time affect children's health?

- Screen time can take time away from other activities like family time, exercise, and hands-on hobbies
- Too much screen time can make vision problems worse

How kids use screen time

- Watch TV/YouTube
- Schoolwork
- Games
- Create videos
- Message friends
- Read
- Video chat
- Social Media

Not all screen time is bad!

How does social media affect children's health?

Social media can have both positive and negative influences on a child's life. Talk about positive uses of technology

Social media can help children...

- Build relationships, belonging, and community
- Discover self-expression
- Learn skills
- Pursue genuine interests

Social media can also...

- Be time-consuming
- Lower self-esteem
- Introduce inappropriate content
- Increases anxiety and depression

How much screen time is healthy?

- Younger than 2 Try to only use screens together for short periods
- Age 2-5 Try to spend 1 hour or a lesson on educational shows, especially ones that help children move around

For older kids, discuss

- Age 5-12 Make sure screen time never replaces sleep, family time, or exercise
- Age 12 and older Talk with your child about social media and internet use

limits and come to an agreement together!

What can I do at home?

- Quality over Quantity: Focus on using screen time for family bonding, research, and creativity
- Prioritize Sleep: Stop screen time at least 1 hour before bed to promote healthy sleep
- Encourage balance: Build in time for outdoor or non-screen activities
- Visit: For more, go to HRL.NYC

Social Media and Your Child's Health

Many parents are concerned that social media may lead to mental health problems and low selfesteem. Here's how you can help teens use social media safely:

- Set a positive example of social media use
- Discuss what your child sees online as part of daily catchups
- Check your child's profiles to monitor targeted ads
- Encourage kids to follow who they are passionate about and who are good role models
