Feeling Sick?

Do not panic. Coronavirus has symptoms similar to the common cold. Here’s the difference:

If you believe you may have the coronavirus, call your doctor before you go in to make sure you can get a test done.

If you go to an emergency room, you risk getting other sick, or getting the infection yourself if you are not actually sick.

These are COMMON SYMPTOMS, which may vary from person to person. Only a doctor can give you a diagnosis.
